FAQs

1. How to know if the payment transaction is successful?

Only successful transaction sales receipts will be printed out.

Please contact KPay Customer Service if you have any hesitation.

2. Reversal success means transaction success?

“Reversal success” or “Reversal failure” also means the transaction is **failed**. Merchants should retry until the transaction is successful.

Merchants should also record customer’s contact details to avoid any lost from network issues.

3. Do I need to do settlement every day?

In order to ensure the POS terminal perform smoothly, we are now advising our merchants to perform settlement on a daily basis.

4. “Previous Transaction incomplete” shown on POS Terminal, what should I do?

Merchants should perform settlement on POS Terminal and re-login the POS system.

5. The POS Terminal keeps closing unexpectedly, what should I do?

Merchants should perform settlement on POS Terminal and re-login the POS system.
